

GP35 SOUND ATTENUATED DIESEL GENERATOR

Standard Colors:
Red or White

Global Prime Power generators are specifically designed to provide prime power or temporary power anywhere and anytime utility power is not available.

These compact, mobile, sound attenuated generators provide single- and three-phase power simultaneously for construction, commercial, industrial, emergency, and special event applications.

FEATURES

Rugged design for portable power applications.

Heavy duty, direct injection Perkins diesel engine provides maximum reliability.

Brushless alternator with Permanent Magnet Generator (PMG) for superior motor starting.

Premium Automatic Voltage Regulator (AVR) with three-phase rms sensing for improved regulation and performance.

Automatic start/stop contacts allow the unit to start upon a signal from a transfer switch during a power failure.

Voltage selector switch allows an easy change to a wide variety of voltages. Fine tune to exact requirements by adjusting the voltage rheostat on the front control panel.

Sound attenuated, weather resistant, electrostatic powder painted, lockable enclosure with center lifting point for safe, unattended, quiet operation.

Simultaneous three-phase and single-phase output.

Cam-Lock connectors to provide a quick connection alternative.

Reduced operating cost with 500 hour service intervals and fuel-efficient diesel engines.

Large internal fuel cell for extended run times between refueling.

Environmentally-friendly skid with 110% fluid containment and forklift pockets.

Easy-to-read digital controller with safety shutdowns for safe, accurate generator and engine monitoring.

Trailer with flush mount DOT lighting, safety chains, adjustable height couple, and electric brakes.

EPA emission compliance to 40 CFR 1039.625.
