# ABOUT COMPANY

KazUniversalProjectConstruction LLP (hereinafter as KUPC) was founded in November, 2012 with 100% Kazakhstani content and located in Atyrau. The main target of our Company is to become one of the most competitive organization within Kazakhstan.

KUPC LLP is EPC company and we responsible for all the activities from design, procurement, construction, to commissioning and handover of the project to the End-User or Owner.

We offer a wide range of industrial products from global brands to customers throughout Kazakhstan in order to optimize operational project costs, which affects the efficiency and productivity of customers in their areas of activity.

The staff has experience in providing a range of services through the supply chain and takes into account the movement of materials and inventory in the client's warehouses.

KUPC is dedicated to build up strong business relationships not only with Kazakhstan companies, but also welcome to become reliable partner with worldwide Companies.

We are challenged to provide services to ensure the expansion and optimization of the activities of our customers. To achieve this goal, we rely on our corporate culture and a deep understanding of customers' working processes and extensive experience in the development and implementation of innovative technical solutions.
